

EVENT STUDIO

RONALD REAGAN BUILDING AND INTERNATIONAL TRADE CENTER

We believe in the power of connection to move business forward. Whether you are planning an in-person meeting, virtual event experience, or hybrid event, the team at the Ronald Reagan Building and International Trade Center, along with our partner Projection, are here to assist you. As a seamless extension of your team, we can help you envision and produce events that will exceed your expectations.

The Event Studio at the Ronald Reagan Building and International Trade Center enables you to create programs that will connect you with your attendees wherever they are. As virtual and hybrid events have become more prevalent, our event experts can customize and create the right solutions for you. We specialize in producing virtual and hybrid events including corporate meetings, workshops, webinars, galas, fundraisers and more. The Event Studio offers turnkey production services while adhering to safety recommendations and physical distancing guidelines.

Event Studio Offerings:

- Staging with studio lighting
- Full-scale camera and video/audio production to include high-quality recordings and post-editing capabilities
- On-site technical support including webinar producers and production assistants to record, stream and edit live and pre-recorded content
- Comprehensive solutions for your synchronous and asynchronous recording needs
- High-end graphics packages including opening video, lower thirds, title animations and custom transitions
- Creation of technical show flow
- Rehearsal and virtual stage management
